

**Germans Fle Before Americans.**  
**WITH THE AMERICANS NEAR**  
**SEBASTOPOL, July 12, (1918 A. M.)**  
 The Germans retreated so rapidly yesterday that the Americans and French moved forward at the rate of more than a kilometre an hour.  
 Officers had great difficulty in holding back the victorious doughboys in order to keep the line straight. The Americans wanted to go to Germany. One company got so far ahead that an airplane was used to order it back.  
 Everywhere along the line the Germans were in a panic. They left their artillery, machine guns, rifles, and supplies, and retreated eastward.  
 "We were so busy chasing Germans we haven't had time to pay any attention to the stuff they left behind them," said one officer.

## Berlin or Bust!

That's the way our men are fighting.

Months of weary waiting, watching, and patrolling they had, before General Foch gave the order that permitted them to leap out of their trenches and put the huns to rout.

Months of hard, gruelling, preparatory work behind the lines in France; months of strenuous exercise and iron discipline in the training camps before they sailed.

But, when the word came, they were **FIT**—nothing could stop them—

"Everywhere along the line the Germans were in a panic."

Send them reinforcements, as many million as may be needed, until that panic spreads throughout the whole of Germany's forces—until it reaches the rulers of Germany themselves.

Our boys are moving forward—it is no time for us to stand still. We must hurry forward the supplies they need, if we want them to end this war and stop the shedding of American blood. Don't wait to do your duty—

Believing that it is the duty of every person who enjoys the freedom and privileges of citizenship in our great Country to do his utmost to help win the war, the following firms and individuals have patriotically contributed the money to pay for this and other advertisements of the Fourth Liberty Loan:

## Buy Fourth Liberty Bonds

*"Don't let the SON go down"*

You don't have to pay all cash for your bonds. You can make your first payment from cash in the bank, and take care of the balance out of your daily, weekly or monthly savings.

The forced saving you do now will mean a nice nest egg later, for the

bonds you buy now and pay for as you go along, will prove a splendid investment that will pay you a good interest every six months. After the war, the bonds will be worth more than you paid for them. Don't hesitate to do your duty and do it quickly.
